

Molle PMEK - Personal Mine Extraction Kit

NSN 4240-99-458-9732

The lightweight Personal Mine Extraction Kit (PMEK) is designed to be carried when traveling where anti personnel mines or IED's may be present.

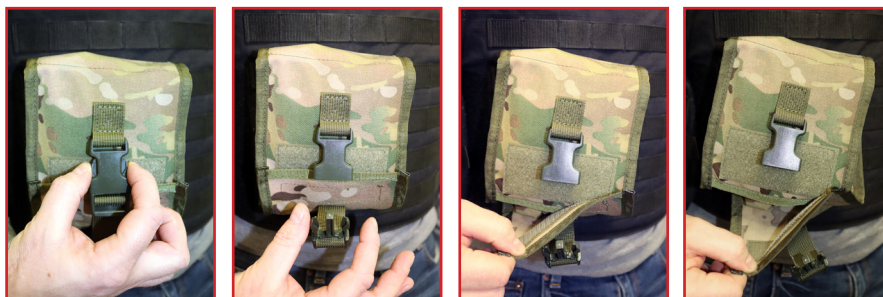

It attaches via Molle and contains components to safely avoid, and map out hostile zones.

The waterproof **Aide Memoire** (English/Ukrainian) contains the best practice for using the kit as well as spotting potential warning signs and avoiding danger zones.
