"I will find a way, or make one"
(Inveniam viam aut facium)

These words from the great military commander, Hannibal, are a core value here at BCB International Ltd.

Passionate

We are passionate about what we do and will work tirelessly to develop equipment solutions for you who go the extra mile for our security and safety.

Experience

Drawing on our 166 years experience of supporting some of the world's best military forces, this catalogue contains a selection of high quality innovative products we can offer you.

Survivability

With hundreds of NATO approved products in our range, you can browse this catalogue knowing that our equipment is tested and proven and will not let you down in extreme conditions.

Just ask!

This catalogue is just a snapshot of what we can offer. Simply ask if you cannot find what you are looking for.

We will endeavour to find a solution for you.

Inveniam viam aut facium!

At your service,
Andy

BCB HISTORY

1854

Dr Brown invented Browns Cough Bottle (BCB) for the British troops in the Crimean War.

1900

Browns Cough Bottle was sold to the public in the UK.

1914

BCB Ltd. was established as a medical company, named after Brown's Cough Bottle.

1940's

First ever medical kit for life boats and rafts were designed and manufactured.

1979

BCB International Ltd was established to develop the military range and export.

1975

Supply of medical equipment to the first successful expedition to the South West face of Everest.

1967

Developed shark repellent for the U.S. Navy.

1950's

First supply to the British Ministry Of Defence

Brown's Cough Bottle Pastilles are made.

1980's

First supply to the United Nations.

1988

Winner of first Queen Award for Export Achievement.

1985

Pioneer brand of outdoor accessories developed.

1993

LRQA ISO Quality Control approval.

1999

Robotic design begins.

2009

Blast Boxes were designed.

2007

BCB International Inc. was established in the USA.

2013

FireDragon eco-friendly cooking developed.

2014

BCB Adventure was set up for the outdoor market.

FIRELIGHTING

FIREDRAGON

The green & clean ecofriendly fuel

The cleanest solid fuel available today:

No soot ✓

No toxic fumes ✓

All weather
Rain, snow, extreme cold or searing heat, FireDragon performs in the most extreme weather conditions

Low luminosity
Emits very little light when burning so as not to give away your position to the enemy

Easy to light
With just a spark, lighter, flint striker or match

Packed safely with food
Easy to store and handle and can be safely packed together alongside food. Unlike many other cooking fuels, FireDragon does not contaminate or taint food

Long shelf life
FireDragon has a shelf life of 5+ years

Lightweight
Extremely lightweight with each block weighing in at only 27 grams. The blocks can be easily carried and stored in pockets, backpacks or webbing

Hand cleanser
FireDragon is a natural disinfectant and can also be used as a waterless soap. Ideal when in the field just before cooking and eating

All Weather

Hand Cleanser

A waterproof, easy to light, non-toxic, and powerful cooking fuel

Watch FireDragon in action:

Eco friendly
Made from sustainable, naturally derived bio-ethanol

Non-toxic & odourless
Unlike other cooking fuels, FireDragon burns without any noxious or toxic fumes. It can also be used indoors (with suitable airflow)

Compatible with most cookers
Can be used with a variety of portable cookers

Fast boil & long burn
A block of fire dragon burns for approximately 8 minutes (2 blocks - 12 minutes) and boils 500ml of water in just 5 minutes

Air transportable
Safe to be packed and transported on cargo

High calorific value
Of 29,000 (kj/kg)

Clean burn
Burns with very little soot or residue so doesn't dirty cooking equipment

Made in the UK
Sourced from British grown grain stocks and made in South Wales

Patented
Unique patented technology granted worldwide. There is no other cooking fuel like it on the market

Quick & Easy to Light

Clean Burn

FIRELIGHTING FIREDRAGON

In the driving rain, the freezing Arctic, at high altitudes or searing heat, FireDragon will perform in the most extreme conditions

FIREDRAGON SOLID FUEL

A new, innovative & environmentally friendly solid fuel

Non-toxic and odourless

Highly effective, high burn fuel

Easy and quick to ignite

Very little soot given off, so doesn't dirty your cooking pot or mess tin

Easy to store and handle

Each block will burn for about 8 minutes

Will light & burn even when wet

Can be used with a variety of cookers

Made from sustainable, natural biofuel

Air Transportable:
UN Class 4.1 Packing Class III

- NON-TOXIC ✓
- ODOURLESS ✓
- 100% NATURAL ✓

Our lightweight, easy to open military packaging

FIREDRAGON GEL FUEL

Easy and clean to use

Our all-weather gel biofuel derived from FireDragon Solid fuel technology

Made from a high purity of ethanol, FireDragon gel fuel can be used in multi-fuel outdoor cooking stoves, and barbecues, as well as for fire lighting

Ideal in the outdoors to cook your rations and boil your brews quickly, safeguard your health, while protecting the environment

Research shows that FireDragon boils water quicker than all other non-gas fuels

Code	CN348A	CN349A
	200 ml	1 litre

COOKING

- Easy to use
- Waterproof
- Compact
- Reusable
- MOD Issue
- Efficient
- Lightweight
- Comes with attachable wind shield

MULTI-FUEL COOKER

This high quality cooker is made from aluminium, and is small and lightweight

The central fuel receiver helps to improve the burn efficiency so improving your cooking time and reducing the amount of fuel you need. You can store 3 FireDragon solid blocks inside the folded closed stove. Ideal while carrying and storing.

(FireDragon fuel tablets not supplied)

Code	CN337
NATO	NSN-7310-99-587-4226
	110 grams (3.8oz)
	11.5x7x2.5cm (4.5x2.7x0.9")

The FireDragon Mini Cooker is a smaller, lighter alternative to the FireDragon multi-fuel cooker

- ✓Lightweight
- ✓Compact
- ✓Robust

The metal can be folded to suit the size of different cooking pots

In ideal cooking conditions the wind shield and vent can be adjusted for a more intense burn

Two FireDragon fuel tablets can be stored in the cooker to save storage space while travelling

Code	CN360
	40 grams (1.4oz)
	7x5x4cm (2.7x1.9x1.5")

MRE - MINI COOKER

(FireDragon fuel tablets not supplied)

COOKING SET MKIII

This new and improved cooking set featuring strong, lightweight and high quality material components

Includes:

- Silicone cup lid (see page 14)
- Canteen water bottle
- Aluminium cooking cup
- Aluminium multi-fuel cooker

Complete Cooking Set

Code	CN030
	510 grams (18oz)
	23x12.5x9cm (9x4.9x3.5")
	152 grams (5.4oz)
	12x14x10cm (4.7x5.5x3.9")
	152 grams (5.4oz)
	8.5x12.5x9cm (3.3x4.9x3.5")

	206 grams (7.3oz)
	19x12x8cm (7.4x4.7x3.1")

COOKING

THE DRAGON MULTI-FUEL COOKING SYSTEM

A strong all-in-one 5 piece cooking set

Each item fits neatly inside the other, making the entire cooking system compact and easy to carry

Hard-anodised metal cup is easy to clean

Multi-fuel cooker works perfectly with our FireDragon fuel, available as solid or gel

The pouch can be molle mounted onto belts, rucksacks or body armour - comes in black or multicam

Drinking Cup

Heavy Duty Water Bottle

Cooking cup

Multi-fuel Cooker

Pouch

You may like to add the silicone lid - see page 14

Complete Cooking Set	
Code	CN017C CN017B
	838 grams (29.6oz)

THE DRAGON MULTI-FUEL COOKING SYSTEM:

Heavy duty, strong and robust

Aluminium cooking cup

Doubles as a cooking pot and features a special heat receptor on its base. Fold out handles

Canteen water bottle

Plastic drinking cup

Stainless steel multifuel cooker
With a fuel chimney to enhance burn

Belt mounted carrying pouch
Perfect accessory with separate compartment for the cup lid. MOLLE compatible

Available in black or camo

All items can be purchased separately:

	750ml (1.58 pints)

CUP CANTEEN

AIRBOURNE COOKING CUP MKIII

Aluminium is quick to heat

Heat retention indent on bottom increases the surface area so the contents cook quicker

2 Steel folding handles

Shaped base with a larger surface area to generate as much heat as possible

Hard anodised - easier to clean

Light weight aluminium

Larger than issued cup canteen

Code	CN540D
	204 grams (7oz)
	13x10x11.5cm (5.1x3.9x4.5")

DRAGON COOKER

Multi-fuel
Internal chimney helps to improve burn efficiency
Vent hole helps to retain as much heat as possible and funnel the airflow for effective fuel burn

Code	CN006
	152 grams (5.3oz)
	12.5x11x8cm (4.9x4.3x3.1")

Heavy duty material
Screw top closure
British army style
Plastic cup with handle
Issue (58 pattern)

Code	CR244A <input type="radio"/> CR244B (NATO) <input checked="" type="radio"/>
NATO	NSN- 8465-99-9736665 (CR244B)
	227g (8oz)
	Mug - 500ml (16.9 fl oz) Bottle - 950ml (32.1 fl oz)

WATER BOTTLE & MUG

High temperature silicone lid
Improves heat retention
Stops debris from an open fire getting into cup
Expands on heating to give a good tight fit

Code	RP009D
	37 grams e (1.3oz e)
	14.5x10cm (5.7x3.9")

DRAGON COOKING SYSTEM POUCH

Molle fastening pouch for the complete cooking system

Available in multi-camo print or black

Tough, durable material

Code	CA815M <input type="radio"/> CA815BLK <input checked="" type="radio"/>
	32 grams (1.1oz)

FIRELIGHTING

Two highly effective flint and strikers, both with a compass

Both designs are comfortable and safer to use

Features a small liquid filled button compass in the handle

The Grand flint and striker slide and lock neatly together; no string necessary

The long flint gives a great shower of hot sparks

Lightweight

Compact

Separate hardened hacksaw blade creates a large striking surface area with its teeth

Product	Grand	Mini
Code	CN340	CN340M
	50 grams (1.6oz)	40 grams (1.3oz)
	11cm (4.5")	8cm (3")

GRAND FIREBALL

MINI FIREBALL

Flint adhered to a magnesium block

This burns readily and very hot so is an ideal catalyst to ignite your tinder

Can be used for starting thousands of fires

MAGNESIUM FIRE FLINT

Scrape shavings off the magnesium block with the hacksaw blade

Then ignite these by striking the blade down the flint showering sparks onto the magnesium

Code	CN331
NATO	NSN-5120-99-471-3046
	15 grams (0.5oz)
	7.62cm (3")

The most compact flint & striker designed to fit into the smallest survival kit

Scraping the flint produces a shower of sparks, suitable for lighting tinder

Code	CN330D
	24g (0.8oz)
	7.6cm (3")

The striker can be used as a small knife or saw

Long lasting

RANGER FIRE FLINT

This kit has the advantage of lasting much longer than a box of matches and its components are sealed

MATCHLESS FIRE SET

Easy opening
Will work in the rain

Code	CN021
NATO	NSN-4220-99-403-2117
	125 grams (0.8oz)
	15x130x3cm (3.9")

Contains 3 FireDragon solid fuel blocks, 6 cotton wool balls, and a ranger fire-lighting flint

Much stronger and more effective than a standard match

These matches have extra long heads and will continue to burn through strong winds and rain

Hand-dipped and varnished

Code	CN343
	45 grams (1.6oz)
	3x5.5cm (1.1x2.1")

Each waterproof container includes 25 matches

Each match burns for over 10 seconds

SURVIVAL MATCHES

RATIONS

RATION HEATING KITS

Our two new lightweight, compact heating kits are perfect for hot food rations. Both feature one of our new flat packed cooker designs as well as our patented environmentally friendly FireDragon Fuel in a unique 7.5 gram (0.3oz) ready to use capsule.

- Folding Stove • Gripping Lever
- FireDragon Capsules 3 x 7.5 gram (0.3oz)
- Book of Safety Matches x8
- Refuse Bag

	Small
Code	CN364

BCB's camouflage nets can be made to your requirements. They come in various sizes and colours in order to camouflage almost anything.

Used by British Army and many other NATO members in South America, Asia and Middle East

Shower resistant

Available in: Woodland, Desert, Mountain/Moorland, or Arctic. Patterns, colours and sizes can be customized according to customer requirements.

Perimeter edge cord

Loops in each corner, and down long sides

U.V treated, mould and rot resistant

Strong

BCB has been supplying the lightest camouflage systems to the UK MoD and to the international market for many decades. Over this time, BCB has built up a reputation as a market leader by delivering the best quality camouflaged goods on time and fit for purpose.

Additionally nets can be supplied in any size and may be joined together to cover larger and even awkward terrain. Light, synthetic materials are used in the manufacturing process for your convenience when transporting and handling our nets. Nets may be used in alternative environments for your commercial or personal interests, for example trade shows, museums, stage sets... the possibilities are endless.

	260 grams (9.5oz)
	18cm (7")

FOX® LIGHTWEIGHT WATERPROOF 3 PART SLEEPING SYSTEM

1 COVER (BASHA)

A lightweight robust shelter sheet forming the third element of the fox sleeping system. Features a fully tape-seamed hem and reinforced, suspension points.

Code	CT047 CT047G
	630 grams (22.2oz)
	257x214cm

Compact and lightweight PU coated Ripstop Nylon Woodland camo print
16 x suspension points
NATO approved
2 mosquito net suspension points

2 MOSQUITO NET

Fox® Jungle Mosquito Net

A rugged, close weave polyester mosquito net.

The net is clipped to fabric loops underneath the basha and via elasticated hooks underneath the hammock.

This shapes the net, pulling the mesh walls away from the body and prevents the net from sagging and allowing insects to enter.

Code	CT433
	480 grams (16.9oz)
	225 x 120 x 105*cm (88 x 47 x 41**)

3 HAMMOCK

Fox® Jungle Hammock

A generously sized, parachute grade, ripstop-nylon hammock.

Code	CT430
	590 grams (20.8oz)
	270 x 140*cm (106 x 55**)

Extremely hard wearing and comfortable it provides protection against the elements and biting insects.

Extremely strong.

*Measurements are approximate

Complete Fox System 3 in 1: **1 + 2 + 3**

The complete system includes hammock, mosquito

Code	CT434
	1.7kg (60oz)

SLEEPING

SELF INFLATING MAT

Extra thick foam makes it ideal for use on stoney terrain
Brass inflation valve. If required the mat's inflation can be topped up orally via the valve

Fastening straps supplied
Quick & easy to assemble

Top: pvc with a non slip taffeta coating
Base: pvc with a non-slip polyester coating

Load limit: 200kg maximum stuff bag
Top colour: dark green
Base colour: grey

Foam: polyurethane 24kg/m³

Code	CT650D
	1.39kg (3.06lb)
	Packed: 32 (H) x 19cm (W) Open: 190 (L) x 60 (W) x 2.5cm (H)

INFLATABLE AIRBED

Mummy shaped

Materials (top): 210t diamond ripstop polyester coated pvc orange

Materials (base): dobby polyester coating pvc + foam

	64 x 63 x 95cm (25.2 x 24.8 x 37.4")

FOLDING CHAIR WITH ARMS

Easy to fold/unfold

FOLDING CHAIR

Perfect for use with the Field Desk and Table

Robust, lightweight and space efficient seating system

Will fit comfortably and interoperable with the folding table and field desks

Strong HDPE plastic panel

Powder coating finished steel frame: 28 x 1.0mm

Stackable and can easily be carried by one person

Plastic feet for extra grip and stability
Manufactured to ISO 9001/2008

Code	FF009
NATO	NSN- 7105-99-729-8853
	5kg (11lbs)
	Packed: 17 x 47 x 115cm (6.7 x 18.5 x 45") Unpacked: 52 x 47 x 89cm (20.5 x 18.4 x 35")

FIELD DESKS

DEPLOYABLE DESK² (DD²)

Available in either sand or olive

This field desk is simple, highly practical and functional.

You can add a removable security screen.

The DD² is larger and quicker to deploy than the Commander's Field Desk

Robust, lightweight and folds away for storage or transport

Simple and intuitive to deploy (from storage/transportation state) in less than 2 minutes by untrained personnel

Excellent for storing papers, whilst allowing them to be hidden from view for privacy when needed

Easy and quick to deploy & fold up. Simply unclick, fold out the two flaps & rotate on the central pivot, then fold down the legs

- Strong, lightweight, drop down legs.
- Smooth flat tabletop when opened
- Two large drawers for file dividers & files, two lockable smaller drawers
- Lightweight: can easily be carried by two people or manoeuvred on its wheels by one person
- A folding privacy screen (available as an optional extra) can quickly & easily be slotted into the front, rear and/or sides to improve secrecy.
- Two plugs or computer extension sockets (not supplied) can be quickly & easily attached under the two side flaps, so they are easily accessible, while out of sight
- Supplied with two BCB folding stools inside

Code	FF014 ● FF013 ●
	54kg (119lbs)
	Open: 214.5 x 74.7 x 81.5cm (84.5 x 29.4 x 32") Closed: 68.2 x 74.7 x 81.5cm (26.8 x 29.4 x 32")

COMMANDER'S FIELD DESK (CFD)

Includes five spacious drawers and large surface area

Foldable design makes transport practical and space-saving. It is then easy to fold open into place

NATO approved

PRIVACY SCREEN

Simply attach the privacy screen for a fully-functional, discreet desk.

PVC coated on both sides

Resistant to fire damage and the spread of flames

Fits into a drawstring bag and can be placed into the draw in the of the Field Desk.

Perfect for use with our field chairs - see page 58

Code	FF002 - Commander's Field Desk	FF003 - Privacy Screen

SANDBAGGER

For flood defences, building and reinforcing defensive positions, quickly and easily. The time saved could save lives.

Sandbags (and lots of them) are essential for protection against blast, bullets and floods. When you need them you want them quickly. The BCB Sandbagger will help you produce all you need, right where you need them.

"Normally filling sandbags is a tiring two-person job with one of the two having to hold each bag as it filled.

But the Sandbagger - which holds sandbags in a metal frame under a large hopper - allows one person to fill two bags at the same time"

- Wales Online

This sandbagger will pay for itself in less than two days

Fills more than twice as many sandbags per hour

"The BCB sandbag filter is well-engineered and performed well during trials assessment.

This would be the preferred equipment if a sandbag filler is required"

- Extracts from the British Royal Engineers Report 2008 on the BCB Sand Bagger

Assuming a soldiers salary is \$20 per hour...

	By Hand	Using the Sand Bagger
Time to fill 100 sand bags:	182 minutes	88 minutes
Labour Cost to fill 100 sand bags:	\$60.66 (2 people)	\$29.33 (1 person)
Labour Cost to fill 5 million sand bags:	£3,033,000.00	\$1,466,500.00

Therefore: Saving per year using the Sand Bagger: **\$1,566,500.00 (or 50%)**

Time taken to recoup outlay on the sandbagger is **11 and a half hours**

The BCB Sandbagger **collapses** for easy transportation and storage and can be erected in seconds.

All parts remain attached which eliminates the possibility of loss and the machine is **completely maintenance free.**

With the saving in labour cost the sandbagger will pay for itself in the first 11½ hours of use.

The wide mouth hopper combined with the unique twin bag slide system allows either: One person to fill 2 bags at once, or: Two people to fill sandbags continuously

Robust: The design loads structurally the strongest points.

Quality: High quality steel used throughout.

Compact: Folding legs reduces its size by half for transport, or storage. Eight per Euro pallet 120cm

high. No detachable components to lose. Light enough for one person to carry.

Flexible: The feet allow it to be used in a soft, dry sand. It can be used with dry earth or shale. Its strength and its large hopper mean it can also be filled by a small mechanical digger

SANDBAGS

Code	CM999
	21.21kg (46.7 lbs)
	Folded: 51 x 51.5 x 54.5cm (20 x 20.27 x 21.4") Assembled: 51 x 51.5 x 92.5 (20 x 20.27 x 36.4")

Hessian Sandbag. Ideal for more robust uses that may require an extended temporary purpose, for example, continued flood prevention and defensive walls.

Code	CM999A
	Capacity: 28.5kg damp sand 25.5kg dry sand
	33x76cm (13x30")

Can be used with synthetic or hessian types of sandbags

Can be erected in less than one minute

Can be used with dry soil, salt or aggregates

Quick fill and removal of sandbags

Plastic coated finish
Virtually maintenance free

Easy to use - little training needed

Few moving parts Easily portable and stackable Rust Proof

BLAST BOXERS

The Original P.U.G - these protective under garments (P.U.G) offer protection against blast & fragments from IED's, and help guard against life changing injuries to the perineum and femoral arteries

PERFORMANCE

Tested in accordance with MILSTD-662F | V50 2gr RCC

Inner thigh
= 910 ft/s [277 m/s]

Upper front & back
= 910 ft/s [277 m/s]

Genital region
= 1020 ft/s [311 m/s]

P.U.G PROTECTIVE UNDER GARMENT

BLAST BOXER™ MKI

Compression design conforms to the body with stretchy side panels.

Flat locked seams for low bulk and low friction.

High wicking fabrics allow sweat to evaporate quickly with minimal drying time.

High fabric permeability - **Breathable**, just like wearing regular underwear.

Can also be supplied with or without the ballistic inserts.

DuPont™ Kevlar® performance maintained after 25 washes at 105oF.*

Ballistic insert protection V50 17gr FSP = 1391.5 ft/s.

Anti-microbial fabric next to skin. Tested to AATCC 100 with **99% bacteria reduction** after laundering in accordance to AATCC 135.

Sculpted design Box brief styling with sculpted genital area, 4" fly opening and overlap of ballistic material at the fly opening.

The ballistic inserts are **soft and highly flexible**. They do not interfere with comfort during walking or running.

Garment fully lined with the soft comfortable fabric to **minimise chaffing**.

Greater protection - less weight

Insert cover is welded to make them **waterproof**.

Berry Amendment and made in America Act compliant.

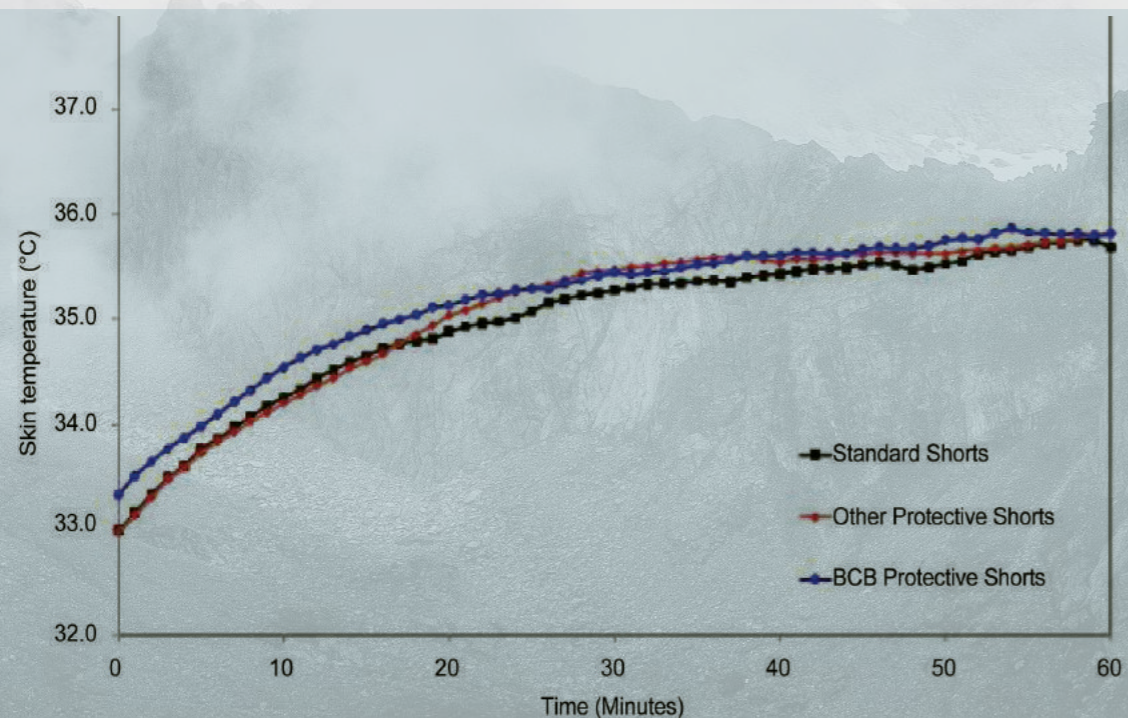

Laboratory and field tested.

Internal heat transfer care label.

Patented - 8533863

Code	CB289
	Medium - 141 grams (5oz)

BLAST BOXERS

BLAST BOXER™ MK II WITH REMOVABLE BALLISTIC INSERTS

- Patented
- Light weight mesh to keep wearer cool
- Boxer/brief styling with fly opening with 7.5cm (3") overlap
- Flame retardant materials throughout
- Helps protect blast and fragmentation injuries to the groin
- Lightweight
- Removable ballistic inserts to increase protection - Add the inserts when the threat level is increased
- No ballistic degradation following washing
- Can be worn with POGs for added protection
- Quick drying
- High air permeability and moisture evaporation or transfer
- Anti-microbacterial with over 95% bacteria reduction after 25 washes
- Fully Berry compliant if required

Code	CB489
 Medium - 167 grams (5.9oz)	

BLAST BOXER™ MK III

- Sculpted design - improved look and increased comfort
- Greater protection - less weight - (less than 150 grams (5.3oz) for size medium)
- Breathable fabric - same thermal burden as regular underwear
- Laboratory and field tested
- Fully Fire Retardant
- Anti microbial and anti odour
- No ballistic degradation following washing
- Fully Berry compliant if required

P.O.G - PROTECTIVE OVER GARMENT

The original protective over garment just got better

The BCB POG strap provides as much **comfort** as possible whilst providing **high level ballistic protection** to the groin and posterior.

The front portion is designed with a clip to enable the wearer to easily urinate, without having to doff or unravel the garment. **This feature seems like a small benefit, but it is amplified during an operation.**

- **Comfortable**
- Fully **adjustable**
- **NIJ Level IIIA** Jock –Strap design
- Front can be worn separate to the rear section
- **Easy to don and doff**
- Cupped shape to the front provides **space and airflow**
- Overall weight of just **970 grams**. Front portion weighing just 480 grams
- Rear attaches with one clip at the front and two G-Hook at the sides
- Each size is **adjustable to fit various shapes and sizes**
- Rear attachment **elasticated** to conform to the wearer's movements in use
- Rear can be **folded and stowed** on the back of the wearer
- **Robust and abrasion resistant** 500 denier Nylon carrier and Nylon webbing
- Designed to be worn over combat trousers
- Groin section is **soft and flexible** for comfort

Code	CB487

FLOATING BODY ARMOUR

F.A.T.S

FLOATING ARMOUR TORSO SYSTEM

COMFORTABLE, BUOYANT AND STRONG

This innovative system provides comfortable armour with an integrated life jacket.

The removable inflatable stole is located underneath the high performing level IIIA armour pack. This protects the wearer and the life jacket from bullet or fragment threats.

Having the lifejacket under the body armour also gives it a low profile close fit.

Other body armours with a neck external lifejacket catch on the helmet.

The gas inflatable stole is kitted out with an automatic trigger which deploys within seconds in water.

The armour vest expands around with the bladder when activated to provide continuous protection.

Extensively independently tested.

Available with a 175 Newton and a 275 Newton floatation capability.

Automatically inflates within approximately 3 seconds of water immersion

Life jacket can be removed if not required and the body armour can be worn independently

Up to 275 newtons of cylinder buoyancy can be topped up by manual inflater tube

Unique 4 point expansion system allows the life jacket to inflate without crushing your chest

Tabard style tactical armour vest

Fully functional all-round MOLLE system to suit the task in any terrain

Removable inflatable lifejacket (Stole), with a choice of 175N or 275N capability

Vest expands with the inflation of the stole

Self rights to clear airways from the water

Fully adjustable at the sides

Internal elasticated waistband distributes the load of the vest

Rear grab handle

Mesh lining for better airflow and rapid drainage

Easy access bladder for re-arming, servicing and cleaning

Lightweight PU coated Nylon 500 denier outer fabric

Removable and adjustable crotch strap

Water resistant aramid used

Ballistic inserts made of low density and buoyant Ultra High Molecular Weight Polyethylene (UHMWPE)

Inserts protected with welded lightweight waterproof covers

Choice of protection tested in accordance to NIJ 0101.04 or NIJ 0101.06

Front and back 25 X 30cm (10"x12") hard armour plate pockets

Protection level NIJ IIIA

Black:

Multicam:

Two options available:

Marines, navy and coastguard

BODY ARMOUR

THE KASTELL PRO® POLICE/SWAT QUICK RELEASE PLATE CARRIER

This modular armour plate carrier vest is equipped with an **integrated quick release system** which works in less than **five seconds** and can be **re-assembled in less than 20 seconds**.

Designed to receive additional **protectors to the neck, shoulders, groin and coccyx** depending on the threat you are faced with.

With transport bag

Features:

- Weight without plates and soft armour inserts: 3kg
- D rings for attaching rifle slings.
- One size fits all. Height and width adjustment points on the shoulder and waist areas to fit all body sizes.
- MOLLE webbing on all faces of the plate carrier.
- Removable velcro ID badges.
- Designed for maximize comfort and to facilitate air circulation.
- Extra thick shoulders padding for greater comfort during prolonged patrols/missions.
- Fitted with a quad quick release system ideal when emergency medical treatment and tactical extraction are required.
- The quick release handle's are easy for right handed or left handed use.
- Can be worn while driving a vehicle.
- Does not restrict the firing position.
- Radio cables and hydration tubes can be threaded through.
- A strong evacuation handle.
- Back armour plate pocket can be moved up or down.

- Cable management on right and left sides (including shoulders).
- Laser cut **MOLLE** finish.
- Can be supplied with removable level IIIA soft armour

Quick release system:

Vented pads:

Code	CL425
	With extras*: 3.28kg (7.2lbs) Without extras: 2.16kg (4.7lbs)

* Extras = Belt, groin and coccyx protectors

SEMI RIDGE PANEL

A high performance, lightweight and ultra-thin panel designed to provide discrete protection against hand guns, knives and explosions. Rated to NIJ Level IIIA 0108.01 (Ballistic resistant protective materials) which includes 44 magnum, 9mm and all lesser threats. Constructed from advanced proprietary technology and is available curved or flat. Dimensions 25 x 30cm (10 x 12") weighs 0.96lb (440 grams). Less 5mm thick (3/16 inch).

Can be used in a variety of different applications including backpacks, clipboards, briefcases, handbags, trauma armour, structural armour, upgrade plates etc.

ICW

Multi curve design for improved comfort and ergonomics. Must be used with NIJ IIIA soft armour. Available in five different configurations;
1/ NIJ IV ICW a/ 2.45KG plate. b/ 2.1KG plate.
2/ NIJ III ICW a/ 1.95KG plate. b/ 1.7KG plate. c/ 1.25KG plate (inherently buoyant)

BODY ARMOUR

MICH WITH RAILS

A reduced weight, higher cut at the back and sides and removal of the front peak. This new low profile provides excellent compatibility with communications equipment, gas masks and especially helmet mounted night vision goggles. The helmet is constructed from para aramid material and provides lightweight, robust protection from ballistic and fragmentation projectiles and other low energy threats. Protection against fragments from V50 450m/sec V50650m/sec according to STANAG 2920 (17gr FSP) and US MIL STD 662F. Ballistic protection is NIJ IIIA.

Code	CL532
	1.4kg (3lbs)
	NIJ IIIA

Produced using high tenacity Kevlar aramid material Crown Mesh Internal Suspension System for improved airflow and stand off from head with 4 point adjustable harness system. Large neck support nape pad for improved comfort and helmet stability. Accessory side rails for attachment of equipment. Front facing shroud for attachment of night vision goggles. Fragmentation Protection V50 640 m/s against 1.1g FSP in accordance with STANAG2920 Shock absorption to EN397 Standard

TACTICAL SPECIAL FORCES

Code	CL062
	NIJ IIIA

COVERT

This concealed undervest is a side opening vest with adjustable shoulder closures. It has pockets for Trauma and Hard armour plates and can withstand multiple hits. It is easy to maintain having removable and machine washable covers. Standard colours are: white, black, navy blue and beige. Other colours are available on request.

Code	CL216
	2.5kg (5.5lbs)

	NIJ IIIA

OVERT

The most complete protection available.

Combining our commitment to **comfort and versatility** with **extreme protection**, this vest is available in the highest NIJ Levels to guarantee you unsurpassed safety.

Complete with front, back and side panels, neck, throat, groin and upper arm protection.

This armour remains **flexible and as light as possible**.

Also includes MOLLE™ webbing for extreme flexibility and comfort.

Code	CL198
	NIJ IIIA

MAX PROTECT

BALLISTIC BLANKET

Designed to provide a portable, flexible, lightweight, compact and multi-purpose means of ballistic protection. It has a number of loops around its perimeter, enabling it to be hung from objects, such as fences, when protection is required.

Magnets mean that it can also be rested against cars, vans and other metal objects. It can be folded for storage and has handles for ease of transportation and deployment. Other sizes are available on request.

Code	CL534
	125 x 125cm (49.2 x 49.2")
	NIJ IIIA

A breathable, comfortable, thin layer of clothing that will protect you from the threat of a blade edge and sharp cuts. This vest offers protection whilst remaining concealed. The material is lightweight, comfortable and breathable without compromising cut and slash protection.

Concealable- wear alone or under a shirt. Comfortable, breathable and lightweight knit. Soft, cotton-reinforced neck, arm and wrists. Choose sleeveless or long sleeve.

Suitable For:

- Security Personnel
- Club Security
- Law Enforcement and Prison

VEST CUSTOMISATION

At BCB we want the solution to best fit the requirement and balance this with your available budget. To achieve this, we offer the option to customise and build a bespoke product just for you.

This can involve simple changes in features and functions e.g. one of both side openings, to different colours and patterns, or adding improvements such as a quick release system.

Call or email us to discuss your requirements, should the above standard options not be exactly what you are after.

GLOVES

ALL GLOVES ARE AVAILABLE IN MULTIPLE STANDARD SIZES

• Supply high quality water, heat and oil resistant goatskin outer

- Comfortable 3 dimensional aramid composite lining
- Suede leather palm reinforcement
- High impact-resistant foam padding to back of hand, fingers and wrist to protect against trauma hazards
- Sewn with fire-resistant thread
- Fully waterproof, breathable microporous membrane providing additional limited protection against:
 - Petrol, certain acids and other chemical risks
 - Blood-borne pathogens (ASTM 1671)

• Available in sizes: 6-13

	25g (0.8oz)
	8cmx2cm (3"x1")

HAND WARMERS (X2)

BCB shark repellent contains a chemical and a thick black dye that repels and disorientates sharks

When tested by the US Navy BCB's shark repellent was the only product to achieve any success in repelling sharks

Since then BCB's shark repellent has been used by Navies worldwide as their approved shark repellent

When this foil packed sachet is squeezed in water, the crystalline acetate produces a dense black cloud

The inner bag has an attachment cord so it can be kept close to your body

This NATO approved product is used in life rafts and for airborne survival packs

Code	MM208

COMMANDO LIGHTWEIGHT WIRE SAW

Wrist Loops

COMMANDO ORIGINAL WIRE SAW

Metal ring handles

Our popular patented wire saw now comes in two versions!

"The No1 choice commando wire saw"

A tightly woven (8 wire) **stainless steel** saw. Lightweight, versatile, robust and extremely strong.

"Ideal for an escape and evasion kit"

- With swivels and split rings
- **Cuts wood and plastic**
- Can be made into a **bow saw**

The original and still the best wire saw

Can be used for escape and evasion
Will cut wood, plastic and bone
Can still be made into a bow saw
Two handle styles - Wrist loops and metal rings

The new version with wrist loops allows the saw to be used more comfortably and for longer in more demanding conditions.

Can also be used to cut branches overhead:

Code	CM020 (Original) CM020A
NATO	NSN-5110-99-456-2156 (Original) NSN-5110-99-565-2549
	10 grams (0.35oz)
	58cm (23")

POCKET CHAIN SAW

A **pocket sized, heavy-duty survival saw** made from riveted sections of band-saw style blade

It will **cut anything** from a thin branch to a large trunk comparatively easily

Bi-directional cutting

Tapered teeth prevent blade sticking whilst cutting

Can be **thrown over high branches** for cutting above head height

Useful for **survival, wood clearing, travelling and gardening**

Fantastic performance for its size

Two string loop handles

Pocket Chain Saw **fits into a small pouch** (supplied)

Code	CM023

IED KIT

PERSONAL IED AND MINE EXTRACTION KIT (PMEK)

A compact lightweight kit. Designed for all people (and vehicles) to carry, at all times when travelling in an area of country where mines or IEDs may be lurking.

This kit could save your life!

The PMEK comprises of:

- A non-magnetic scraper to remove carefully, and from a distance, any loose earth covering the device
- A non-magnetic mine prodder of varying lengths to suit, up to 40 cm (16 inches) long. This is pointed and strong to penetrate most hard compacted ground
- 25 coloured marker pegs to clearly pinpoint the location of any device; or cleared ground
- 30 small chemical light sticks for night marking which can be clipped into the marker pegs
- An aid-memoire on mine field marking, and prodding techniques
- A trip wire feeler

All packed in a neat MOLLE belt pouch

Code	CK005

LOCATION MARKER BALLOON

A GROUND TO AIR SIGNAL BALLOON DESIGNED BY THE MILITARY FOR THE MILITARY

- **New and improved**
- Quickly deployed in under 2 minutes
- **Can be operated by one person within minutes**
- Reusable
- Lightweight and safe to use
- **Lightweight carbon fibre helium cylinder**
- Large (over 1 metre) bright balloon
- **Can be seen over 10 miles away**

- Day or night time visible. Attach a chemical light (two supplied)

- **Radar reflective**

- Uses inert helium gas to inflate 136 litre Radar Reflective balloon

- **Will float high above any jungle or forest**

- Two chemical light disks (supplied) can be attached to both sides of the balloon giving at night an excellent signal, especially if the pilot is wearing NV goggles

- **75 metre (250 feet) strong kevlar tether**

- The balloon will stay aloft for many days

- The balloon has an excellent lifting capacity and can take up approximately 90 gms (i.e. a radio antenna) above the canopy
- The foil balloon gives a large radar reflective signature (over 10 metres)**
- Can be quickly used to mark your Drop Zone position or if in need of rescue
- Can be pulled back down and released back up as required**
- Very effective in other distress environments, e.g. maritime, desert and woodland

NON-LETHAL

BOAT STOPPING SYSTEMS (BSS)

BCB has many years of experience producing non-lethal Boat Stopping Systems (BSS). These three variations each use a pneumatic launcher that fires an arrestor line across the bow of a suspect or intruding vessel.

This provides a **non lethal, quick, easy and reliable** means of stopping vessels. The BSS are **unique, patented** maritime defence systems which are non lethal, **100% effective**, simple to use and **extensively tested**.

THE LINE ARRESTOR SYSTEM:

The arrestor line system is simple and effective

Each system fires a floating Dynema or Spectra line with a sea anchor at both ends.

The line and sea anchors are launched, and the sea anchors deploy.

The floating line catches on the rudder or the propeller shaft. The sea anchors inflate and create many tons of drag to stop the target vessel.

① The line and sea anchors are launched in a streamlined container (the munition)

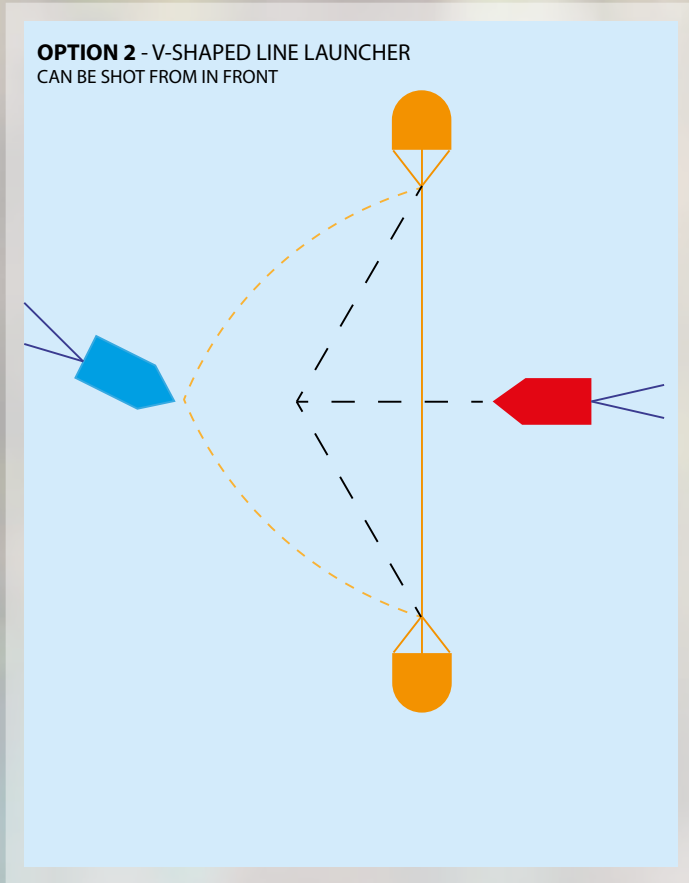

② The floating line captures the cavitation plate/anti-ventilation plate on outboard or inboard/outboard motors, or the boat's rudder etc.

③ The sea anchors deploy and inflate to create many tons of drag to slow the target vessel to a stop in seconds.

④ The line normally does not foul the propeller or damage the vessel.

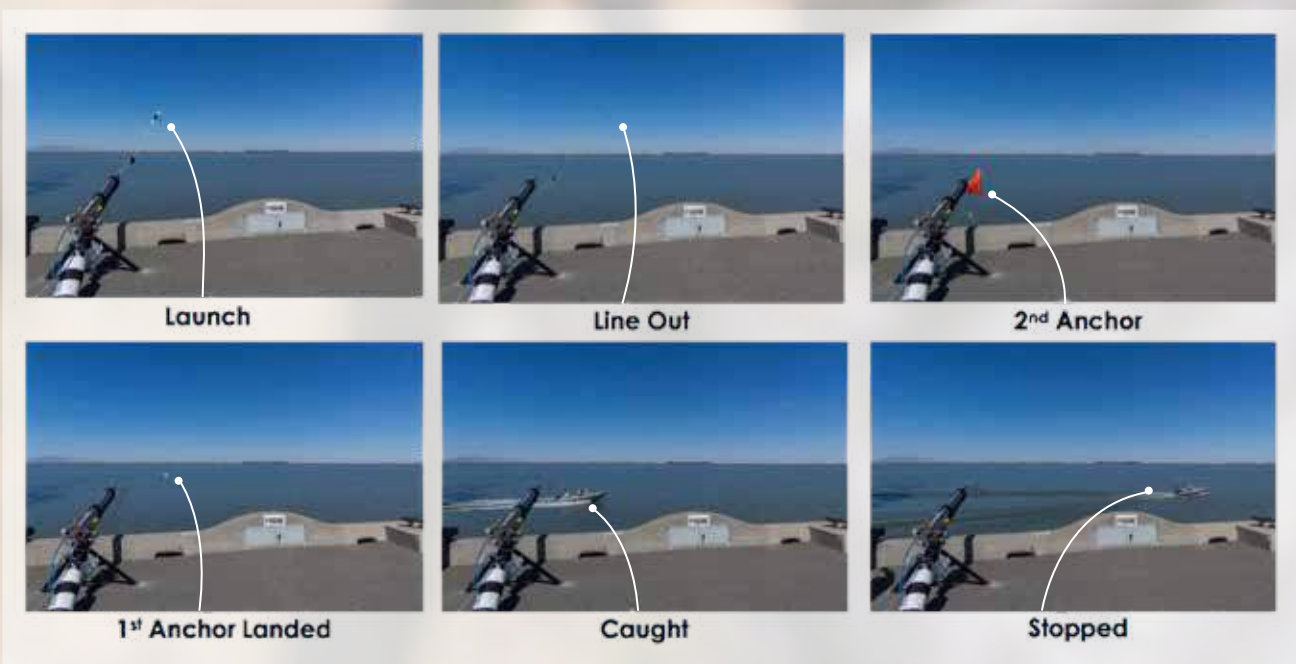

CHOOSE FROM STRAIGHT LINE OR V-SHAPED LAUNCHER:

Both Buccaneer and Sea Stinger can be given a **unique capability** by mounting two barrels on a common manifold in a V configuration so that the launcher can **fire both ends of the floating line at once**, thus enabling the line to be projected perpendicular to the firing point.

This is effective in a **head-on encounter scenario** where a line can be laid down in front of the target, for **protecting an asset against an incoming threat** or laying down a barrier behind the launching vessel.

Dimensions	6" x 52" (15cm x 130cm)	47" x 11" (117cm x 27cm)	59" x 23" (147cm x 57cm)
Suggested application	For hand-held use on or off shore. Use in confined waterways.	This medium launcher can have a single or twin V shaped barrel fitted. For use on all sizes of vessels from RIBS to capital ships to merchant vessels. Can be used to fire a line for ship to ship or ship to shore.	For closing quickly a port, harbour or estuary or for non lethal protection of a navy, coastguard vessel or oil rig. To protect any maritime assets.

Comparitive diagram of the three BSS variants:

1

BARRACUDA

A hand-held device capable of launching a 36 metre (40 yard) arrestor line and two 3 ft (1m) sea anchors.

Operates at a low pressure of 150 pounds per square inch

Works in a variety of sea states

Ideal for close-in interception

Comes in carrying case with two munitions

Code	BARR001
	13kg (28.6lbs)
	15x130cm (6"x52")

BOAT STOPPING SYSTEMS (BSS)

2

BUCCANEER

In recent trials the buccaneer stopped a 3 ton boat at 25 knots in seconds

The Buccaneer KIS delivers projectiles designed to deter and disable small fast sea craft at extended range

With a range of up to 200 meters the Buccaneer KIS uses specialised payloads to lay **buoyant netting / line** for interdiction operations. The Buccaneer KIS is **extremely flexible** having a **360 degree rotation and depression and elevation of 45 degrees from horizontal**.

It can be operated remotely from the bridge or control room quickly and safely and uses **no explosive or pyrotechnics parts in its use**.

The Buccaneer can be loaded with alternative projectiles such as **high density smoke, flares, or buoyancy aids**.

Projectiles to either:

- Lay **netting over a wide area**
- Lay a **buoyant line or lines**
- Or to **entangle the assaulting crafts propeller**.
- Dispense **airburst smoke** or an **irritant gas**
- Dispense **multiple small projectiles** over a wide area - up to a 50 meter square - in a **scatter gun approach**

Control station for remote firing

The projectiles:

- Non lethal** - like paintballs
- Less than lethal** - like squash balls
- Lethal** - like gravel or golf balls

This provides a layered defence. The lethality can be increased if the approaching craft is not initially deterred.

Alternatively, it can deploy:
Survival items to a man overboard like a single seat liferaft or buoyancy aids
A rope line to shore for mooring, or to another vessel for **towing**

SEA STINGER

3

The Sea Stinger is used as an 'Area Denial System' for large marine key point installations such as oil rigs, ports, estuaries or large cargo vessels that are vulnerable to acts of piracy or terrorism.

The 'big brother' of the Buccaneer, the Sea Stinger is able to deploy entangling net out to a range of **600 meters**

Recover the line or net and re-use it again and again

The Sea Stinger provides a non lethal deterrence and defence against incursions into vulnerable water ways and areas of sea. It is both simple to use and maintain.

Reloading is quick and easy, taking only two minutes

Dockside mounted or on board a ship

The largest of the three in the range

Stainless steel throughout

KANN

Model Defence Ball Launcher	Rifled long barrel
Material	High quality stainless aluminium
Safety	Barrel removable via pin
Size	44 / 83 SP
Action	One/Single
Height	Butt Folded 19.5" (500mm) Extended 27.5" (700mm)
Thickness	Butt Folded 3.6" (92mm) Extended 2" (52mm)
Weight	5lb / 2.30kg
Length Barrel	11" 280mm
Rifled	12 Right
Accuracy	Within a 8"x8" square from 98ft
Sights	Fibre Optics
Pontet	Oversized fingers passage
Quick Scoring	3-point system for quick scoring targets
Load carriage	1 strap attachment

The Kann 44 CLR® is a new generation and innovative less-lethal launcher, which best meets today's challenges and operational requirements

Its design outperforms other launchers on the market on the quality of materials used as well as its accuracy thanks to its long rifled barrel 11"(28cm)

FLEM

The FLEM® is a patented less-lethal ammunition for smooth barrelled 12 gauge shotguns

Its unique design delivers more accurate, safer and effective immobilisation of target than other less-lethal 12 gauge projectiles on the market

- Extremely accurate within a 30cm2
- Limits rebounding
- High visibility green or yellow
- Less lethal
- 20 meters
- High accuracy = less collateral damage

Code	QA026
	14 grams (0.5oz)
	52mm (2")

FLEM 12 GAUGE	Less-lethal ammunition
Material	Elastomer composite
Caliber	12 Gauge
Diameter	0.7" (18mm)
Length	2" (52mm)
Weight	0.5oz (14 gram)
Cartridge casing	Plastic: 0.02oz (0.8gram)
Maximum speed	160m/s
Shooting range	20m
Accuracy	30cm2 20 meters away

UN Number	UN0012
Risk Class	1.4s

WALL BREAKER - NON EXPLOSIVE

The WBS (Wall Breaker System) is the high power launcher, capable of firing a 22kg projectile with sufficient force to punch through, non explosively, a double skin breeze block cavity wall.

The WBS can be mounted on a static location, such as critical infrastructure, vehicle mounted or manually wheeled into position

125

- **Non Lethal** - increasing the safety of building occupants
- **Extensively tested and engineered to the highest standards.**

- **Easy to operate and maintain**
- **Adaptable and flexible to your operational needs**
- **Can be recharged and loaded in seconds**
- **Low cost**
- **In service now worldwide with S.F., SWAT and Military units**

Watch it in action:

Fitted with a Recoil Mitigation System the WBS uses water or sand filled projectiles. Reduces collateral damage and increasing safety for building occupants: such as hostages or for search and rescue operations.

RESCUE

FIBRELIGHT CRADLE

A Maritime recovery system that can be operated by a single crew member.

The Cradle also serves as a **boarding ladder, scramble net and stretcher.**

The Fibrelight Cradle is **lighter, more compact and more versatile** than any comparable devices on the market.

Requires only regular inspections and minimal maintenance, so there is no requirement to pay for annual servicing.

The Cradle has been primarily designed for use by rescue craft, rigid inflatables, ship lifeboats and Marinas.

Code	MF809
	5kg (11lbs)
	1.3x3 metres (4ft3")

The inflatable bridge with a difference
Catamaran style 'footprints' offer **enhanced stability** on water

- **Easy portability**
- **Rapid inflation**, deployment and mobility
- Rapid extension 'link-up'
- Total stability air bridge
- Use for recovery or as a work platform.

Code		 (Capacity)
MF0011	2 metres	200kg
MF0012	3 metres	300kg
MF0013	4 metres	400kg
MF0014	5 metres	500kg
MF0015	10 metres	1,000kg

RESCUE BRIDGE

FIBRELIGHT EMERGENCY LADDER

- This ladder can be carried and then deployed by a **single person in less than a minute**
- **Lightweight** and **straightforward** to use
- **Incredibly strong** - this ladder has been tested and approved for thermal ageing, weathering, UV light, oil resistance and practical performance
- Standard width of **600mm**, produced in lengths of **2 to 30 metres**
- **Orange or black**
- There are **no metal parts** and therefore is suitable for deployment on vessels or platforms with fire risks

RESCUE

INFLATABLE RESCUE CUSHION

The Inflatable Rescue Cushion is ideal for rescuing persons when it is not possible to use a ladder. The unit is very fast to deploy and facilitates rapid evacuation. It is very stable and there is almost no bounce-back. The cushion always deforms towards the centre and it is easily transported whether packed or inflated.

The Inflatable Rescue Cushion comprises an inflatable frame which supports a high strength, flame retardant PVC coated fabric. Inflation is from a 300 bar air cylinder, the connection for which will be compatible with the brigade standard. Relief valves are fitted to prevent over pressure but the operating pressure of the tubular framework is sufficiently high to ensure extended service periods without topping-up. As the frame inflates air enters the cushion, which is divided horizontally into two chambers, through vents in the side walls. The force of a person landing on the cushion temporarily deforms it towards the centre. Air from the cushion (but not from the tubular frame) is forced out and so the impact is absorbed. On removing the person the cushion recovers its form within seconds.

The Inflatable Rescue Cushion can also be used to rescue pilots escaping from cockpit windows on burning aircraft or for aircraft without escape slides.

Surface Conditions: The Inflatable Rescue Cushion may be placed on almost any surface including gravel and kerbstones, although very sharp objects and glowing embers should be avoided.

Moving the Rescue Cushion: Carrying points on all four sides enable even the largest inflated cushion to be easily moved and finely positioned.
