# LESS LETHAL AMMUNITION

## 44/83MM

### MAT44 CLR®

#### LESS LETHAL AMMUNITION - 44/83MM - MAT44 CLR®

The MAT44® is a new generation of impact ammunition, made in France, for the less lethal launcher. It's gyroscopic ballistic effect out performs the spherical projectile. The MAT44® meets impact criteria as well as the requirement to physically and behaviourally immobilise the target.

MAT44® the bullet shape and rifled barrel increase the ballistic qualities and improves accuracy, ideal for crowd control.

The MAT44® offers a range of 5 to 30 meters when used with the KANN44 CLR.
