

Individual First Aid Kit (IFAK)

Technology Photos

System Details

A rapid opening first aid kit designed for individual use. Offers time saving solution and quick access to live saving items in the field.

Will allow casualties in the field to be treated with ease and speed

No training is required of the IFAK but medical training of some of the contents is.

- Quick, easy access to the vital contents
- Easy pull out Velcro handle
- Velcro ID Patch

Current Contents: Haemostatic dressing, chest seal, wound clotter, gloves, plasters, antiseptic wipes, military field dressing, emergency light stick, cohesive bandage, nasopharyngeal airway, combat tourniquet and tuffcut scissors

- Contents can be varied to suit your needs or differing environments.
- Weight: 642 grams (22.64oz) ⊖ Dimensions: 20 x 16 x 5cm (7.8 x 6.2 x 1.9") ⊖

How it would be used?

The IFAK is a rapid opening First Aid Kit, designed to offer a time-saving solution for all soldiers (not just medics) when a life threatening injury needs immediate attention.

MOLLE compatible attachments.

The specialist kit which is quickly deployable will enable soldiers to treat casualties in the field immediately before medics arrive.

Simple and intuitive to use.
