

# FRAMM<sup>®</sup> - Adjustable/foldable weapon stock

The FRAMM<sup>®</sup> is a unique stock that allows operatives to comfortably fire their weapons while wearing a ballistic helmet with the visor fully lowered (ballistic visors and gas masks).

## Features:

- Nine position settings ensure that it can conform to any body and ballistic visor shape.
- Rubberized non-slip weapon stock pad maximizes comfort and firing stability
- Left and right hand use
- Easy to install and use
- Patented
