

# The Kastell Pro Aqua

## Plate Carrier

A novel plate carrier made from FR and quick drying materials. Ideal for operatives whose missions include beach landings, river crossings and vessel boardings.

Extra padding on the shoulders for greater comfort during prolonged patrols/ missions.

The quad quick release system can be activated in 5 seconds and clipped back together in 20 seconds.

Modular cummerbunds have adjustment T Bars that can move the cummerbund onto the next molle strap.

Unlike standard MOLLE webbing, the patented MOLLE apertures minimise disruption to the camouflage pattern and render the textile more breathable, cooler and allow quicker draining of water

Removable tactical belt.
