## BCB INTRODUCTION

For over 160 years, BCB International Ltd has built up unique knowledge and experience in developing life-saving and protective equipment for those operating hundreds and thousands of miles away in often challenging environments. We are a leading manufacturer and global supplier of life-saving equipment. BCB's experience means you can be assured that you are getting quality and proven products that meet the highest possible standards.

Very few companies can match BCB's product range, capabilities, experience and reach. BCB's past and future are rooted in the Military sector. BCB's insight and understanding of the modern soldier's needs enables it to add value for its customers. BCB is a family company.

In a world facing an uncertain future you can be certain that BCB's team and resources stand ready to support you. Further information available on our website ([www.bcbin.com](http://www.bcbin.com)) or [www.ngoaid.com](http://www.ngoaid.com)

### Expertise

Support the Armed Forces is part of BCB's DNA. Ever since it developed cough medicine for British troops fighting in the Crimean War, generations of elite and security forces around the world would have benefited from BCB's rapid bespoke solutions to help them meet their increasingly compressed operational tempo. Maximizing the modern soldier's comfort, survivability and operation performance is what our products are all about.

### Quality

Behind each product are many years of tireless care and attention to quality. BCB International is an ISO 9001:2015 approved company and continues to strive to deliver products you require at or above your quality standards

### Value for Money

As a primary manufacturer and supplier to the UK and many other NATO countries, you can be sure of getting value for money quality.

### Global Reach

BCB is an established leading global supplier and manufacturer of live-saving specialist equipment. Today it trades in 96 countries across 6 continents. This means that BCB has the capacity to swiftly deliver large orders throughout the world. It is this growing capacity that has ensured that for many decades BCB has successfully delivered urgent operational requirements to Government Agencies and Global companies around the globe

### Development

With our in-house designated seamstresses and computerized modeling, BCB's facility in the UK means we can rapidly produce prototyping solutions tailored to your needs.

**COMBAT TOURNIQUET SF112**

The combat tourniquet is a good medical device to completely occlude blood flow of an extremity by one hand. The windlass rod is strong enough to twist the internal band in order to stop the blood flow and the free-moving internal band can apply true circumferential pressure to the extremity. The windlass clip adds strength so it can keep the security when the rod needs to be fixed in clip with a great strength for a long time.

**Features**

- 100% effective
- Reliable, good quality reduce the chance of release or mechanical failure
- Easy application
- Lightweight windlass
- Repairable
- Padded back gives more comfort for the skin

**Tried, Tested & Proven**

**BCB CARRY SHEET CT100**

Minimum Order Quantity  
**25**

The BCB Carry Sheet is easily and securely fastened by Molle to the back of the soldier's body armour, from which it can be opened in a matter of seconds.

- Made from lightweight and robust fabrics.
- Six Grab handles for easy transportation
- Available in all camouflage patterns
- IRR treated
- Made from robust rip stop nylon and high tensile strength nylon webbing
- Weight: 280g (10oz)
- Closed dimensions: 28 x 24 x 1.8cm (11 x 9.4 x 0.7")
- Open dimensions: 190 x 75cm (74.8 x 29.5")

**CELOX Z-FOLD GAUZE RM193B**

The Celox gauze is the fastest acting haemostatic gauze, and stops severe arterial bleeding with only 60 seconds of compression

**Features**

- Works within 60 seconds of compression
- Stops severe bleeding – fast
- Rapid action reduces blood loss
- Stops hypothermic bleeding found in severe traumatic injuries

**CELOX WOUND TREATMENT APPLICATOR GRANULES RM193E**

Treat narrow penetrating injuries fast with the power of Celox Granules in a pre-filled applicator.

Penetrating injuries such as blast or knife wounds are very difficult to treat and often lethal. Celox-A is a unique haemostatic granule applicator pre-packed with 6g of Celox granules and designed to get through a small entry wound to the bleeding site in just a few seconds.

CLOTHING

BLAST BOXERS

CB289L

BCB designed the Blast Boxer using a special Aramid fabric, positioned around the crucial zones of the groin. Light open structure mesh is used on the rest of the garment to help offset the weight and thermal load of the ballistic material.

#### Features

- 2-layer Kevlar zones to protect the groin and femoral arteries
- Lightweight mesh sides and lining to help relieve the heat and perspiration
- Anti-odour and fast drying properties
- External seams to maximise comfort
- V50 rating double layer: 227.8 m/s (Fragment: 5.8 grain)
- Lightweight – only 150 grams
- Proven better ballistically than silk copies
- Performance is unaffected before and after washing
- Test reports available

FireDragon is the all-weather, eco-friendly biofuel. Made from UK sourced ethanol.

FireDragon can be used in multi-fuel outdoor cooking stoves.

FireDragon was created with military in mind and is currently supplied to UK MoD as their primary cooking fuel.

**Key Features**

- Quick and easy to light – with just a spark, lighter or match
- Eco-Friendly – made in the UK from traceable, sustainable and naturally derived bio-ethanol
- Non-toxic and odourless – burns clean without copious quantities of noxious or toxic fumes
- Constant high-quality flame temperature
- Approximately 8-10 minutes burn per block
- Can be used indoors or outside in all weather conditions
- Easy to store and handle
- Safe to be packed with food
- Solid block can also be used as a waterless antibacterial hand cleanser when opened
- Suitable for all weathers – come heavy rain, strong wind or snow. FireDragon will still ignite and burn

**FIREDRAGON FOLDING COOKER CN337**

The folding cooker is a compact and lightweight made from aluminium. It can store 3 FireDragon solid blocks inside the folded closed stove. The compact folding cooker is ideal for carrying and storing.

**Features**

- Durable      • Waterproof      • Easy to Use      • Efficient      • Can burn different fuels
- Reusable      • MOD Issue      • NATO Approved

Set contains: Folding Cooker, Fuel receiver and windshield

The central fuel receiver helps to improve the burn efficiency so improving your cooking time and reducing the amount of fuel you need.

**MULTI-FUEL COOKING SYSTEM (5-PIECE SET) CN023**

Similar to military issue, each item fits neatly inside the other and also 'around' the water bottle so it is compact for you to carry. It is shaped to fit next to you and it is all contained in a handy belt-pouch in either black or multicam.

**Contents**

- Plastic Drinking Cup      • Canteen Water Bottle – Folding handles. 1 litre, heavy duty (Osprey)
- Aluminium Cooking Cup MK2. Doubles as a cooking pot and features a heat receptor on its base.
- Stainless Steel w/ black PTFE coating – Multi-Fuel cooker. Has a fuel chimney which enhances burn.
- Belt mounted carrying pouch.

**COOKING**

WIND AND WATERPROOF MATCHES

CN343

The all-weather matches have extra-long heads to make them safer and easier to light, especially in dark conditions or in bad weather where lighting may become more difficult. They are stronger and more effective than standard matches. Able to burn continuously through harsh weather such as strong wind and rain.

These matches are NATO approved and come complete with a waterproof container which contains 25 matches and 3 striker areas including one that is protected from damp by the sealed lid.

### Features

- Each pot contains 25 matches
- Suitable for hard weather (Wind and waterproof)
- Longer head for a longer burn time
- Each match burns for over 10 seconds
- Hand-dipped and varnished
- Waterproof container
- 3 separate striker areas

**CUP AND BOTTLE CR244A**

Traditional Water Bottle & Mug.

The bottle holds 1 litre of water and is made of a rigid black plastic. The Mug will hold 500 ml

As part of the NATO system, this water bottle is designed to sit inside the BCB NATO Crusader Cup, helping to save space in your rucksack.

\*This heavy-duty water bottle features a seal in the lid to prevent leakage, while the lid is permanently attached to save you losing it. When purifying collected water with chemicals, the black plastic water bottle prevents light from affecting the purification process, making this a safer choice. \*

- Standard Black
- BPA Free
- Volume: 1 litre
- Sealed screw-top lid
- Dry weight: 227g (8oz)

**CRUSADER CUP MK1 BLACK RP540B**

- Weight: 290g
- Volume: 750ml
- Lid not included
- Stainless Steel
- Fold open handles

**SPECIALISED**

**CBRN DECONTAMINATION POWDER SF242**

Fullers Earth - CBRN Decontamination Powder 200 gram

Used by military forces worldwide, this is a clay-based powder used for personal NBC decontamination purposes. The powder is completely natural.

Absorbs and removes a wide range of chemical and biological agents from clothing, equipment, skin and hair.

**PERSONAL IED AND MINE EXTRACTON KIT (PMEK) CK005**

Designed for people (or vehicles) to carry when at risk from anti-personnel mines or IEDs.

**Features**

- A non-magnetic mine prodder of varying lengths to suit, of approx. 30cm length (12 inches). This is pointed and strong to penetrate most hard, compacted ground
- 25 coloured (red & white) marker pegs to clearly pinpoint the location of any device; or cleared ground
- 30 small chemical light sticks for night marking which can be clipped into the marker pegs

An aide-memoire on mine field marking, and prodding techniques. A trip wire feeler.

All held in a neat MOLLE belt pouch. Similar to multi camo

**CAMOUFLAGE**

**GHILLE SUIT**

**RGKT01**

Fully professional, affordable, 3D camouflage net system that is both compactable and strong. It has reversible colour combinations for added concealment and is designed to break up your outline, disrupt your landscape and disguise objects (when you need to be discreet). The sniper suit is non-toxic and friendly to the environment.

The system offered is a complete and ready to wear Ghille suit comprising of hood, long jacket and trousers, all in 3D disruptive woodland camo netting.

### Features

- Built in a comfortable, bug-proof netting, which is hand-washable
- Made from durable lightweight polyester fabrics
- Rot and mould proof
- 3D Leaf-like foliage
- Quiet and rustle free
- Pre-made, no assembly required

# CAMOUFLAGE

**GHOST GHILLE (SET) GHA002453**

Lightweight and highly breathable camouflage poncho to be worn over clothing and equipment.

Lighter than conventional ghillie suits. It is worn over clothing and can also cover tactical gear. It covers the full upper body and when in crouch it usually touches the ground. The back is long enough to cover a daypack. The hood is attached and fits over a helmet, even with ear pro on it. The elastic band allows adjustment of the hood. The eye opening is covered with mosquito net. The also

sewn on hand camouflage is like mittens and fits over gloves. In the front there is an opening with a cover flap. This can be used for a lens or a scope. Below this opening is a small elastic loop to shorten the front of the hoodie. In our instructional video you can see how this is done. On the Hoodie are around 50 CFIX loops. These can be used to attach natural vegetation or our adaptive camouflage materials.

- On and off in seconds
- Wearable with or without helmet
- One size for all. Fits over any equipment / daypack
- Without opening or dropping the camouflage – access to holsters, belts, bags and equipment
- Eye slit with mesh for optimal camouflage in close range

Supplied in pairs. The chausse like construction allows a unisize. Around the upper leg is an elastic cord with cordlocker for better fit. With the Canadian button can be used to secure the legs on belt loops or the belt itself.

The attached shoe camo has got an opening in the back. So it can be used optional. In our instructional video you can see how to secure the shoe camo, when not in use. We don't recommend using the shoe camo for long walks on roads or similar. Per leg we attached 10 CFIX loops. These can be used to add natural vegetation or to tie in our adaptive camouflage material. This product can also be used to camouflage equipment when you are in position. For example, you can easily cover a rifle or a big tele lens. On the camo side with contrast stripes, production-related colour transfer of the camo pattern is possible.

## SIGNATURE MANAGEMENT GHILLE SUIT SMS

The suit improves upon current in-service camouflage, by offering concealment from drones and other advanced lenses.

The material is also currently undergoing trialling for fire resistant coatings that do not impact the IR and thermal reflective properties, meaning it will have added value to land forces in that it will be a safer environment to operate in.

The suit will be used in the field by snipers/observation posts. The wired hood can be easily and quickly adjusted according to the user's needs.

The suit requires no training to utilise and can be donned and doffed with ease.

### Features

- Protects the wearer in the visual, infrared (NIR & SWIR) and thermal spectrum's (MWIR & LWIR) Mk8 Multi-spectral Material
- Random 3D pattern blends in with the irregularities of nature.
- Dimensions 30cm (L) x 15cm (Diameter)
- Weight 1.6kg

# FURNITURE

## ROLL MAT CT650BBP

Minimum Order Quantity  
**25**

Designed for year-round use, ideal on the coldest nights. Designed for five seasons, not four. This could be the best foam sleeping mat you'll find if you're looking for that balance between warmth, cushioning and portability in cold conditions.

Approx 1850 x 550 x 10 mm. Original foam sleep mat, Olive Drab. Without embossing.

It is thicker than the basic mat. Yet it can still be rolled up to less than seven inches thick, weighs a little over 225g and comes with two retaining bands to make it easy pack and carry.

## SLEEPING MAT SELF INFLATING CT649J

This mat has a passive self-inflating system, inflating in under 2 minutes. It can be topped up by mouth or pump if required. Comfortable and highly insulated sleeping mat.

**Specification:**

- 40D Nylon Cover TPU Material
- 193 x 60 x 6cm
- Weight: 680gr
- Weight Limit: 250kg
- Olive green one side, other side orange.
