

Buccaneer

Boat Stopping System

The Buccaneer KIS delivers projectiles designed to deter and disable small fast sea craft at extended range.

With a range of up to 200 meters the Buccaneer KIS uses specialised payloads to lay buoyant netting / line for interdiction operations. The Buccaneer KIS is extremely flexible having a 360 degree rotation and depression and elevation of 45 degrees from the horizontal.

It can be operated remotely from the bridge or control room quickly and safely and uses no explosive or pyrotechnics parts in its use.

The Buccaneer can be loaded with alternative projectiles such as high density smoke, flares, or buoyancy aids.

FEATURE	BUCCANEER (SHIP BORNE)
Barrel diameter	5" (125mm)
Maximum range (approx)	200yds (200m)
Typical line length	100yds (100m)
Typical barrel length	48" (1.2m)
Max operating charge	40bar (600psi)
Total weight	72lbs (33kg)
Dimensions	47" x 11" (117cm x 27cm)
Suggested application	This medium launcher can have a single or twin V shaped barrel fitted. For use on all sizes of vessels from RIBS to capital ships to merchant vessels. Can be used to fire a line for ship to ship or ship to shore.
